

WINE LIBRARY

Modular refrigerated displays for wine bottles

Brera Wine Library is a new way to interpret the space and a new way to store wine. Cellars, wine showrooms and restaurants find this innovative bottle display ideal for all storage needs and requirements.

The stainless steel structure of this glass unit is the perfect frame for your wine bottles; it will add value and style to your collection and can be customized in different colours.

Additionally, the full-length glass doors and interior LED lighting system (white 6000K led light as standard, warm 2700K led light on request) with dimmer for light intensity regulation included, will make your bottles of wine irresistible.

To meet all storage needs and requirements, Wine Library is available in different heights, 220 cm and 260 cm, both with depth 55 cm and with different bottle storage capacity.

Each door is independent with the possibility to set different temperatures inside the cabinet; this allows to optimally store various types of wine, arranging them as per any need or desire thanks to the different types of bottle-handling structures available (not included).
